

CAPTURE THE MOTION

Press release 2012-06-08

## ***Visit Vicura at the international VDI drivetrain congress in Friedrichshafen, Germany***

Vicura will be a part of the 2012 VDI "Getriebe in Fahrzeugen - Drivetrain for Vehicles" on the 19th and 20th of June in Friedrichshafen.

Vicura will have a stand in the exhibition area on the bottom floor close to the stairs (stand nr: 71). In the stand it will be possible to meet Vicura representatives and view our technology know-how, for example a complete electric driveline that will be shown.

At 09:15 on Wednesday the 20th, Torbjörn Kvist, manager Simulation and testing, will give a speech on Oil splash simulation using CFD which will include:

- Multiphase CFD simulation of oil flow in transmission
- Experimental validation of the simulation methods
- Virtual development of transmission housing including the lubrication system
- No need for experimental development of the lubrication system

Vicura board member Prof. Dr.-Ing. Karl Viktor Schaller, also member of VDI program committee, will participate with Vicura in this event.

### ***Vicura Participants during the VDI congress:***

Dennis Lundgren	CEO
Magnus Wall	Sales & Marketing Director
Dan Freiholtz	Engineering Director
Torbjörn Kvist	Manager Simulation & Testing
Mats Hultman	Key Account Manager

Feel free to contact us for separate meetings during the event.  
We look forward to seeing you in Friedrichshafen!

Vicura is a company of engineers, creating entire solutions for drivelines that excel at capturing motion. Our customers are global companies in the car, commercial, construction, energy and marine industries.
